## SAHA TAKES ACTION TO HELP PREVENT FLU AMONG ELDERLY AND DISABLED RESIDENTS

**Photo Opportunities:** Elderly and disabled residents of low-income communities receiving anti-flu care packet from SAHA employees. See list below of properties and addresses.

SAN ANTONIO (October 1, 2009) - Beginning today, the San Antonio Housing Authority (SAHA) will deliver anti-flu care packets to its more than 2,500 elderly and disabled residents. All packets, which contain tip sheets, antibacterial gel, antibacterial soap and a small package of tissue, are anticipated to be delivered by the weekend.

While stopping the flu may not be possible, SAHA recognizes that information and a few extra cautionary steps can make all the difference in limiting the spread of any virus. SAHA has distributed flyers and posters to inform all of its residents of how to recognize flu symptoms, what to do, how to avoid it and how to limit it from spreading. Tips include the basic essentials of washing your hands (antibacterial gels are better), cover your coughs and sneezes with your elbow and stay home if you are sick.

Additionally, SAHA has partnered with a health care provider who will conduct flu vaccine clinics at several elderly/disabled communities throughout the month of October.

“SAHA is committed to improving the quality of life of our clients, and given that a majority of our clients are elderly and/or disabled and particularly vulnerable to illness, SAHA is pleased to provide a small care package to help them sustain their good health,” said SAHA President and CEO Lourdes Castro Ramirez.
