ADDENDUM # 3

To: 1010-204-53-3352
IFB for: PCs & Associated Peripherals

The following question has been asked:

Question 1. I am not clear on the printer specs of this IFB. Do I need to add the additional paper tray and or memory to each machine or just the paper tray?

Answer 1. The printer must come with minimum memory stated for each printer and be expandable to at least the amount indicated. See the changes below to clarify this requirement. Each printer must come with the optional paper tray listed for that printer.

Change each listed section in the RFP to read as shown below:

3.9.1.10 Memory: must include a minimum of 128 MB standard on board and be expandable to at least 384 MB.

3.9.2.10 Memory: must include a minimum of 128 MB standard on board and be expandable to at least 640 MB.

3.9.3.10 Memory: must include a minimum of 128 MB standard on board and be expandable to at least 640 Mb.

3.9.4.10 Memory: must include a minimum of 128 MB standard on board and be expandable to at least 384 MB.

3.9.5.10 Memory: must include a minimum of 384mb standard on board and be expandable to at least 1 gigabyte (gb).
