

**ADDENDUM # 1****To: 1110-920-37-3644****RFP for: Wide Area Network (WAN) Services**

The following questions have been asked:

- Question 1:** Page 52, items. 1.5 and 1.6 state 100Mbps Fiber Ethernet WAN connection, however the fee sheets reflects 25Mb pipe(items 2 and 3). We believe you are requesting 25Mbps of access on a 100Mbps port but would like clarification.
- Answer 1:** Items 1.5 and 1.6 statements are a definition of the 100Mbps Ethernet handoff we are requesting from the vendor provided router or switch using 10/100 Ethernet ports on that equipment, not bandwidth. The bandwidth requirement is still 25 Mbps to the central office and 25 Mbps to the DR site from the vendor.
- Question 2:** Page 54(drawing) reflects 100Mbps between your Production Data Center and DR Data Center; however the fee sheet (item 4) reflects 1Gig. Please clarify 100Mbps or GIG connection between the sites.
- Answer 2:** The drawing is incorrect. The connection between the Production Data Center and the DR Data Center is a fibered 1 Gig connection and not 100mbps as per the drawing.
- Question 3:** Page 52, item 1.2 notes Ethernet handoff at branch sites and item 1.3 notes T1 at branch sites. Typically a T1 is a TDM handoff and not Ethernet. Can you clarify which is required at the branch locations?
- Answer 3:** Item 1.2 Vendor Provided T-1' connections for WAN locations will be through vendor provided T1 WAN interface equipment with built in CSU/ DSU for T1 to Ethernet conversion.
- Question 4:** Will SAHA use their own routers or is it their intent to purchase routers from the chosen vendor?
- Answer 4:** SAHA will utilize its routers.
- Question 5:** Can you provide the addresses and area codes and exchanges for each site referenced in your drawing and specification outlined in Attachment F?
- Answer 5:** See attached listing of SAHA Properties
- Question 6:** Has anything changed from the last RFP?
- Answer 6:** The scope has been revised
